Mail Stop SEQUENCE

Sir:

In response to the Notice to Comply With Requirements for Patent Applications Containing Nucleotide And/Or Amino Acid Sequence Disclosures mailed October 10, 2006, applicants respectfully submit that the previous sequence listing filed December 19, 2005 is in complete compliance with the rules. In the Notice to Comply With Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequence Disclosures dated October 10, 2006, the Comment Sheet states that page 53, line 28 contains an amino acid sequence not found in the paper copy of CRF. However, Applicants note that SEQ ID NO: 13 as provided in the December 19, 2005 sequence listing sets forth the amino acid sequence at page 53, line 28, and further note the specification has also been amended accordingly. Applicants thank

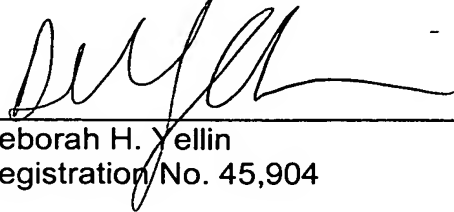

Examiner Priebe for confirming these issues with Applicants' representatives.
Therefore, Applicants believe that no substitute sequence listing is required.

Respectfully submitted,

BUCHANAN INGERSOLL PC

Date: December 7, 2006
